### Description

StellaLife® VEGA® Oral Care Recovery Kit consists of a homeopathic antibacterial rinse, gel and a spray that provide pain relief, reduce inflammation and edema, accelerate healing and post-operative recovery. StellaLife VEGA Oral Care Recovery Kit contains an 8 oz. bottle of rinse and a 1 oz. bottle of the gel and spray. Rinse can be used as part of routine daily oral hygiene. It kills bacteria that cause cavities and periodontal disease, hydrates oral cavity, freshens breath. Patients should refrain from eating or drinking for 20 minutes after using the products. The gel and rinse can also be purchased separately. Start 3 days before the surgery to increase therapeutic levels and continue 7 days after. Use rinse first, then spray and followed by the gel 3-4 times per day, after meals. Refer to Patients' Application Guide on their website.

### Unique Features

- Accelerates healing after oral procedures
- Pain relief for dry mouth, oral ulcers, dry sockets, cold/denture sores and mucositis
- Homeopathic/Natural

"WOUND HEALING WAS FAST, ESPECIALLY AROUND PROVISIONAL BRIDGEWORK."

### Consultants' Comments

- "Healing looked more mature/less inflamed after 24 and 48 hours and at 1 week post-op."
- "I like that it is homeopathic. The packaging of all three products together is good."
- "This product is very useful. I gave it out to my implant patients and they recovered well."
- "Patient-friendly - we like the pre- and post-op use."
- "My patients have had less discomfort than after previous extractions."
- "A patient perceived a benefit and said how much they liked it."
- "It sped up wound healing, particularly around dentures."
- "Helped patients maintain the area after implant and surgical treatment."
- "The kit with rinse, gel and spray was great for a chemo patient who was having difficulty finding a soothing product without parabens."
- "We successfully used it to treat erosive lichen planus for multiple patients."
- "Good for patients after bone grafting and implant procedures."
